

WindowGraphx WR SA 3989

Highlights:

.....

Sihl WindowGraphx WR SA 3989 is a water-resistant self-adhesive translucent film that is compatible with pigment and dye-based inks on thermal and piezo printers. The low-tack removable adhesive allows for easy installation and repeat positioning. Graphic images printed on WindowGraphx can be applied on any flat glass surface, and looks great in reflected or backlit lighting. Window Graphx is ideal for store windows, glass doors, and beverage coolers.

*Water resistance achieved with pigmented inks only.
